### **Pupil Guardian Scheme (Dattak Palak Yojana)**

#### **Objectives of the Practice**

- To identify economically weaker students and to encourage them for higher education.
- Financial assistance to economically weaker students for education. Student-teacher ratio is maintained 1:1
- To develop sensitivity amongst teachers for economically weaker section of society.
- To encourage the NGO's and social organizations to participate in this scheme.

#### **The Context**

The College is located in the vicinity of villages. Most of the students are the wards of farmers and labours. They suffer financial crisis. Hence staff decided to adopt financially weak students in the ratio 1teacher:1 needy student.

### **Procedure**

The applications were invited from the students expecting assistance in education. After scrutinizing the applications by the committee, students were shortlisted for personal visit. Members of PGS Committee visit the families and interact with the parents. All teachers are involved in the scheme and they willingly provide financial assistance to the students. The institution also promotes this scheme amongst local NGO's to contribute when number of needy students is more than teacher student ratio.

This scheme has been proved to be very helpful to solve the financial problems of needy students thereby they can concentrate on academic performance by saving their energy and time for earning.

“Pupil Guardian Scheme” is a unique practice and other institutions can implement it with dedication. The scheme ensures the completion of the higher education of poor and needy students. It strengthens the relationship between the teacher and students where the teachers work beyond the boundaries of the classroom and staffroom.
